WHAT'S A

REFUGEE?

A refugee is
a person like you and me...

who had to flee their country
because they were in danger:

Maybe because their
country was at war...

or because people wanted
to hurt them because of
their religion or opinions...

or because there was
a natural disaster that
destroyed everything.

Refugees would prefer to
go back to their country,
with their friends and family...

But it's too dangerous. Often,
their homes are destroyed and
they don't have anything left.

Refugees now have to find
another country to live in.

A country where they would
like to live safely and in
peace, just like you and me.
